

Gentlemen,

As a Flight Attendant, I oppose allowing cell phones to be used onboard an aircraft. It is very hard now to have passengers to turn off their phones, PDA's and laptops before the closure of the Main Cabin door. Passengers are getting verbally violent to us the flight attendant when asked to turn them off. Protecting the flying public is getting harder and harder to do when confronted by these people. Please DO NOT ALLOW cell phone useage aboard planes. Thank you, Barbara Willard, employee 18997, PSA Airlines, US Airways
